Checking our pulse is essential in monitoring our Vital Signs. The Pulse highlights a specific indicator of human well-being that is contained in United Way of Central Oklahoma’s Vital Signs report or is being noticed through United Way’s work in the community.

United Way of Central Oklahoma focuses on the building blocks of a good life – a quality education that starts from birth and ultimately leads to a stable job, enough income to support a family through retirement, good health and the ability to achieve one’s full potential. Social scientists have repeatedly demonstrated that few factors match the breadth of impact that education has on an individual and their community. In this issue of The Pulse, we explore the economic impact of obtaining a high school diploma.
