**Description:**
City Care exists to do the work few others are willing to do. Poverty, homelessness, mental illness and substance use are community issues and deserve a community response of support for those working to create a better life for themselves and their loved ones. We believe in the intrinsic value of every person and it is with love and compassion we advocate for the overlooked in our community. In doing so, we hold space for complete restoration and we witness first-hand, remarkable stories of transformation. Still reading? Great! Now more about the position.
City Care is searching for the right person with a knack for seeing great potential in others and working as part of the team with the shared goal of motivating change toward that potential. To advocate is to speak in favor of another. We believe that our best advocate role is lived out by being in relationship with those that are working hard to believe in a bright future for themselves. We are looking for a very organized and task-oriented Advocate to work closely with a caseload of single men living in a peer-supported community, by guiding them toward health and wholeness.

**Responsibilities include but are not limited to:**
Carry out the mission, vision and values of City Care.
